

## SECTION 1 Identification

### 1.1. Product identifier

|               |                                                                         |
|---------------|-------------------------------------------------------------------------|
| Product form  | : Substance                                                             |
| Trade name    | : POLY-G® 30-565                                                        |
| Chemical name | : Polyether Triol                                                       |
| CAS-No.       | : 25791-96-2                                                            |
| Formula       | : (C3H6O) <sub>n</sub> (C3H6O) <sub>n</sub> (C3H6O) <sub>n</sub> C3H8O3 |

### 1.2. Other means of identification

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Synonyms | : Poly(oxypropylene) triol / Glycerol poly(oxypropylene)triol / Glycerol tri(polyoxypropylene) ether / Glycerol, propoxylated / Glyceryl polypropylene glycol ether / Poly(oxypropylene) glycerol triether / Poly[oxy(methyl-1,2-ethanediyl)], .alpha.,.alpha.',.alpha."-1,2,3-propanetriyltris[.omega.-hydroxy- / Polypropylene glycol glycerol triether / 1,2,3-Propanetriol, methyloxirane polymer / PPG-10 GLYCERYL ETHER / Glycerin propoxylate / Glycerol propoxylated / Propoxylated glycerin / Polyoxypropylene glycerin ether / Propylene oxide-glycerol polymer / Glycerol propylene oxide polymer / Polyoxypropylene (10) glyceryl ether / Poly(oxy(methyl-1,2-ethanediyl)), .alpha.,.alpha.',.alpha."-1,2,3-propanetriyltris(.omega.-hydroxy- / Laprol 3003 / Laprol-503 / Polyoxypropylene glycerol ether / Polyoxypropylene glyceryl ether / .alpha.,.alpha.',.alpha."-1,2,3-Propanetriyltris[.omega.-hydroxypoly-[oxy(methyl-1,2-ethanediyl)]] / Polypropylene glycol glycerol ether / Propoxylated glycerol / PPG-16 glyceryl ether / Trihydroxypolyoxypropylene ether |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 1.3. Recommended use of the chemical and restrictions on use

No additional information available

### 1.4. Supplier's details

Monument Chemical  
2450 Olin Road  
Brandenburg, KY, 40108  
USA  
T (270)422-6860  
[sds@monumentchemical.com](mailto:sds@monumentchemical.com) - [www.monumentchemical.com](http://www.monumentchemical.com)

### 1.5. Emergency phone number

|                  |                                                                                                              |
|------------------|--------------------------------------------------------------------------------------------------------------|
| Emergency number | : 24 HR CHEMTREC: 1-800-424-9300 (International +1 703-741-5970); 24 HR Emergency Assistance: 1-270-422-6860 |
|------------------|--------------------------------------------------------------------------------------------------------------|

## SECTION 2 Hazard Identification

### 2.1. Classification of the substance or mixture

#### GHS US classification

Not classified

### 2.2. Label elements

According to the corresponding national regulations there is no labelling obligation for this product.

### 2.3. Hazards associated with known or reasonably anticipated uses

No additional information available

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### 2.4. Hazards not otherwise classified

No additional information available

### 2.5. Unknown acute toxicity

No additional information available

## SECTION 3 Composition/information on ingredients

### 3.1. Substances

| Name                                  | Product identifier  | %        |
|---------------------------------------|---------------------|----------|
| Polyether Triol<br>(Main constituent) | CAS-No.: 25791-96-2 | 99 – 100 |

Full text of hazard classes and H-statements : see section 16

### 3.2. Mixtures

Not applicable

## SECTION 4 First aid measures

### 4.1. Description of necessary first-aid measures

|                                       |                                                                                                                                   |
|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). |
| First-aid measures after inhalation   | : Allow affected person to breathe fresh air. Allow the victim to rest.                                                           |
| First-aid measures after skin contact | : Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.                 |
| First-aid measures after eye contact  | : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists.                         |
| First-aid measures after ingestion    | : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.                                                        |

### 4.2. Most important symptoms/effects, acute and delayed

|                                                     |                                                                                            |
|-----------------------------------------------------|--------------------------------------------------------------------------------------------|
| Potential Adverse human health effects and symptoms | : Based on available data, the classification criteria are not met.                        |
| Symptoms/effects                                    | : Not expected to present a significant hazard under anticipated conditions of normal use. |

### 4.3. Indication of immediate medical attention and special treatment needed, if necessary

No additional information available

## SECTION 5: Fire-fighting measures

### 5.1. Suitable (and unsuitable) extinguishing media

|                                |                                                        |
|--------------------------------|--------------------------------------------------------|
| Suitable extinguishing media   | : Foam. Dry powder. Carbon dioxide. Water spray. Sand. |
| Unsuitable extinguishing media | : Do not use a heavy water stream.                     |

### 5.2. Specific hazards arising from the chemical

No additional information available

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### 5.3. Special protective equipment and precautions for fire-fighters

- |                                |                                                                                                                                                                   |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Firefighting instructions      | : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. |
| Protection during firefighting | : Do not enter fire area without proper protective equipment, including respiratory protection.                                                                   |

## SECTION 6 Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

- |                      |                                   |
|----------------------|-----------------------------------|
| Emergency procedures | : Evacuate unnecessary personnel. |
|----------------------|-----------------------------------|

#### For emergency responders

- |                           |                                                                                                           |
|---------------------------|-----------------------------------------------------------------------------------------------------------|
| Protective equipment      | : Equip cleanup crew with proper protection.                                                              |
| Emergency procedures      | : Ventilate area.                                                                                         |
| Environmental precautions | : Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. |

### 6.2. Methods and materials for containment and cleaning up

- |                         |                                                                                                                                                |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods for cleaning up | : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|

See Heading 8, Exposure controls and personal protection

## SECTION 7 Handling and storage

### 7.1. Precautions for safe handling

- |                               |                                                                                                                                                                                                 |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 7.2. Conditions for safe storage, including incompatibilities

- |                        |                                                                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage conditions     | : Keep only in the original container in a cool, well ventilated place away from : Ignition sources.<br>Keep container closed when not in use. |
| Incompatible products  | : Strong bases. Strong acids.                                                                                                                  |
| Incompatible materials | : Sources of ignition. Direct sunlight.                                                                                                        |

## SECTION 8 Exposure controls/personal protection

### 8.1. Control parameters

No additional information available

### 8.2. Appropriate engineering controls

No additional information available

### 8.3. Individual protection measures, such as personal protective equipment

#### Personal protective equipment:

Avoid all unnecessary exposure.

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

|                                    |
|------------------------------------|
| <b>Hand protection:</b>            |
| Wear protective gloves.            |
| <b>Eye protection:</b>             |
| Chemical goggles or safety glasses |
| <b>Respiratory protection:</b>     |
| Wear appropriate mask              |

### Personal protective equipment symbol(s):

### Other information:

Do not eat, drink or smoke during use.

## SECTION 9 Physical and chemical properties

### 9.1. Basic physical and chemical properties

|                                                 |                                                                                        |
|-------------------------------------------------|----------------------------------------------------------------------------------------|
| Physical state                                  | : Liquid                                                                               |
| Appearance                                      | : Colorless to pale yellow liquid.                                                     |
| Color                                           | : Colourless to yellow                                                                 |
| Odor                                            | : mild                                                                                 |
| Odor threshold                                  | : No data available                                                                    |
| pH                                              | : 5 – 7 (@ 25 Deg. C)                                                                  |
| Melting point                                   | : No data available                                                                    |
| Freezing point                                  | : No data available                                                                    |
| Boiling point                                   | : Not applicable (decomposes), OECD 103: Boiling Point                                 |
| Flash point                                     | : > 200 °C (Open cup)                                                                  |
| Flammability (solid, gas)                       | : Non flammable.                                                                       |
| Vapor pressure                                  | : < 1 mm Hg (@ 25 Deg. C)                                                              |
| Relative vapor density at 20°C                  | : No data available                                                                    |
| Relative density                                | : 1.08 – 1.16                                                                          |
| Density                                         | : 9 – 9.2 lb/gal                                                                       |
| Molecular mass                                  | : 200 – 6800 g/mol                                                                     |
| Solubility                                      | : Soluble in water.                                                                    |
| Partition coefficient n-octanol/water (Log Pow) | : -1.82 – -0.73 (Calculated, Other, 25 °C)                                             |
| Auto-ignition temperature                       | : 305 °C (1014 hPa, EU Method A.15: Auto-ignition Temperature (liquids and gases), T2) |
| Decomposition temperature                       | : No data available                                                                    |
| Viscosity, kinematic                            | : No data available                                                                    |
| Explosion limits                                | : No data available                                                                    |

### 9.2. Data relevant with regard to physical hazard classes (supplemental)

No additional information available

## SECTION 10 Stability and reactivity

### 10.1. Reactivity

No additional information available

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### 10.2. Chemical stability

Not established.

### 10.3. Possibility of hazardous reactions

Not established.

### 10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures.

### 10.5. Incompatible materials

Strong acids. Strong bases.

### 10.6. Hazardous decomposition products

fume. Carbon monoxide. Carbon dioxide.

## SECTION 11 Toxicological information

### 11.1. Information on toxicological effects

Acute toxicity (oral) : Not classified  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

#### Polyether Triol (25791-96-2)

|                    |                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------|
| LD50 oral rat      | 4600 mg/kg                                                                                                      |
| LD50 dermal rat    | > 2000 mg/kg (OECD 402: Acute Dermal Toxicity, 24 h, Rat, Male / female, Experimental value, Dermal, 14 day(s)) |
| LD50 dermal rabbit | > 2000 mg/kg                                                                                                    |
| ATE US (oral)      | 4600 mg/kg body weight                                                                                          |

Skin corrosion/irritation : Not classified  
pH: 5 – 7 (@ 25 Deg. C)

Serious eye damage/irritation : Not classified  
pH: 5 – 7 (@ 25 Deg. C)

Respiratory or skin sensitization : Not classified  
Germ cell mutagenicity : Not classified

Carcinogenicity : Not classified

Reproductive toxicity : Not classified  
STOT-single exposure : Not classified  
STOT-repeated exposure : Not classified

#### Polyether Triol (25791-96-2)

|                            |                                                                                                                     |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|
| NOAEL (oral, rat, 90 days) | ≥ 1000 mg/kg body weight Animal: rat, Guideline: OECD Guideline 407 (Repeated Dose 28-Day Oral Toxicity in Rodents) |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|

Aspiration hazard : Not classified

Potential Adverse human health effects and symptoms : Based on available data, the classification criteria are not met.

Symptoms/effects : Not expected to present a significant hazard under anticipated conditions of normal use.

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### SECTION 12 Ecological information

#### 12.1. Ecotoxicity

Hazardous to the aquatic environment, short-term (acute) : Not classified

Hazardous to the aquatic environment, long-term (chronic) : Not classified

##### Polyether Triol (25791-96-2)

|                      |                                                                                                                                        |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| LC50 - Fish [1]      | > 100 mg/l                                                                                                                             |
| EC50 - Crustacea [1] | > 100 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Fresh water, Experimental value, GLP) |

#### 12.2. Persistence and degradability

##### Polyether Triol (25791-96-2)

|                               |                  |
|-------------------------------|------------------|
| Persistence and degradability | Not established. |
|-------------------------------|------------------|

#### 12.3. Bioaccumulative potential

##### Polyether Triol (25791-96-2)

|                                                 |                                          |
|-------------------------------------------------|------------------------------------------|
| Partition coefficient n-octanol/water (Log Pow) | -1.82 – -0.73 (Calculated, Other, 25 °C) |
| Bioaccumulative potential                       | Not established.                         |

#### 12.4. Mobility in soil

No additional information available

#### 12.5. Other adverse effects

Ozone : Not classified  
Fluorinated greenhouse gases : No  
Other information : Avoid release to the environment.

### SECTION 13 Disposal considerations

Product/Packaging disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.  
Ecological waste information : Avoid release to the environment.

### SECTION 14 Transport information

In accordance with DOT / IMDG / IATA

#### 14.1. UN number

Not regulated for transport

#### 14.2. UN Proper Shipping Name

Proper Shipping Name (DOT) : Not regulated  
Proper Shipping Name (IMDG) : Not regulated  
Proper Shipping Name (IATA) : Not regulated

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### 14.3. Transport hazard class(es)

#### DOT

Transport hazard class(es) (DOT) : Not regulated

#### IMDG

Transport hazard class(es) (IMDG) : Not regulated

#### IATA

Transport hazard class(es) (IATA) : Not regulated

### 14.4. Packing group

Packing group (DOT) : Not regulated

Packing group (IMDG) : Not regulated

Packing group (IATA) : Not regulated

### 14.5. Environmental hazards

Other information : No supplementary information available.

### 14.6. Transport in bulk

Not applicable

### 14.7. Special precautions for user

#### DOT

Not regulated

#### IMDG

Not regulated

#### IATA

Not regulated

## SECTION 15 Regulatory information

### 15.1. Federal regulations

All components of this product are present and listed as Active on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

This product or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

### 15.2. International regulations

#### CANADA

##### Polyether Triol (25791-96-2)

Listed on the Canadian DSL (Domestic Substances List)

#### EU-Regulations

##### Polyether Triol (25791-96-2)

Listed on the EU NLP (No Longer Polymers) inventory

# POLY-G® 30-565

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

### National regulations

#### Polyether Triol (25791-96-2)

Listed introduction on Australian Industrial Chemicals Introduction Scheme (AICIS Inventory)  
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)  
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory  
Listed on KECL/KECI (Korean Existing Chemicals Inventory)  
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)  
Listed on NZIoC (New Zealand Inventory of Chemicals)  
Listed on the Japanese ISHL (Industrial Safety and Health Law)  
Listed on the TCSI (Taiwan Chemical Substance Inventory)  
Listed on the NCI (Vietnam - National Chemical Inventory)

### 15.3. State regulations

California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm

## SECTION 16 Other information

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

Revision date : 6/3/2025  
Issue date : 6/3/2025  
Other information : None.

Safety Data Sheet (SDS), USA

DISCLAIMER: Monument Chemical believes that the information expressly set forth in this Safety Data Sheet (SDS) is accurate as of the date of publication. MONUMENT CHEMICAL EXPRESSLY DISCLAIMS ALL WARRANTIES OF EVERY KIND AND NATURE, EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Monument Chemical assumes no responsibility for any use of or reliance upon the data provided in this SDS. Given the variety of factors that can affect the use of the material, some of which are uniquely within the user's knowledge and control, the user should independently evaluate (i) the completeness and accuracy of the information provided herein and (ii) the material to determine whether it is suitable and safe for the user's intended use.

Monument Chemical provides information in electronic form as a service to its customers. Due to the remote possibility that electronic transfer may have resulted in errors, omissions or alterations in this information, Monument Chemical makes no representations as to its completeness or accuracy. In addition, information obtained from a database may not be as current as the information in the SDS available directly from Monument Chemical.
